

DK-OPTICART ACCESSORIES

An additional foldable shelf can easily be installed on the DK-OPTICART, thus providing team members a workspace.

With the foldable shelf, it becomes easy to modify the plan-o-gram of a given section.

The white bin, which can be used on a conveyor due to its non-slip bottom, and comes with two adjustable dividers.

Each shelf has several adjustable dividers which make it easier to transport containers of different sizes.

The plastic stopper prevents the products from falling over when the row is not full and assists in organizing similar products.

The cosmetic tray has six compartments for easy storage.

Plastic clip that fits at the front of the drawer can hold a work sheet, work schedule or products identification.

With four swivel wheels, the DK-OPTICART is easy to move within the small back store aisles.

**DRAKKAR
INTERNATIONAL**

In order to achieve an increased efficiency in material handling, Drakkar International promotes innovative logistics solutions that include a storage system for unit products, as well as an optimized shelf replenishment process.

DK-OPTICART

MADE IN USA

The **DK-OPTICART**, a mobile storage vehicle, is an integrated storage and replenishment solution that directly leads to a reduction in replenishment time, increasing employees' productivity and decreasing inventory levels, resulting in immediate benefits including a rapid Return on Investment (ROI).

Material handling carts, logistic carts, plastic and metal working tables, blister cards carts, plan-o-gram carts, shopping baskets, children's baskets and hand baskets are at your fingertips at Drakkar International. We manufacture and distribute products that are functional and adapted to our customer needs and markets.

CONFIGURABILITY OF THE DK-OPTICART

With its five removable drawers and its polyethylene structure, the mobile storage vehicle **DK-OPTICART** is lightweight, quiet and easy to move while having a load capacity of more than 450 kg (1000 lbs).

DIMENSIONS : 585 x 812 x 1555mm (23 x 32 x 61 in.)

It is possible to mix regular drawers and bins within the same DK-OPTICART for a customized solution.

With a DK-OPTICART, bins with dividers can replace the shelves for transporting or storing smaller items. The **DK-OPTICART FB** comes with 10 white bins and 20 dividers.

PRODUCTIVITY

When filled to its full capacity the cart remains easy to move, ensuring the ability to quickly and frequently replenish refrigerated self service areas.

EFFICIENCY

Pharmaceuticals, personal hygiene, health or seasonal products, are all grouped together on the cart to be efficiently transported to their respective aisle.

INVENTORY CONTROL

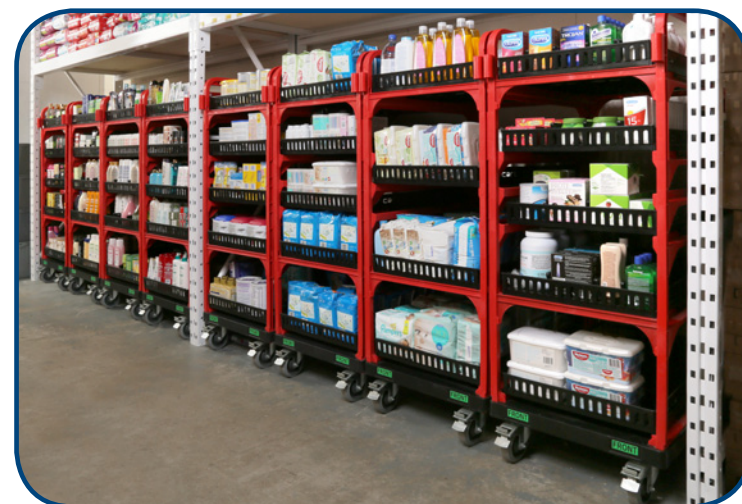

Upon completing the initial stocking of the store shipment, the remaining products are grouped by category onto the carts, for quick replenishment.

AN INNOVATIVE SOLUTION FOR UNIT PRODUCT STORAGE AND AN EFFECTIVE PROCESS FOR SHELF REPLENISHMENT

INSTALLATION DIVERSITY

The DK-OPTICART fits under either 24 in. (610mm) or 48 in. (1220mm) deep warehouse racking.

STORAGE SOLUTION

The DK-OPTICART is a highly regarded storage solution by retailers since the cart is easy to park and move.

STORAGE SOLUTION

The DK-OPTICART allows the pharmacy to reduce their storage needs and thus maximizes their storage space. The vehicles are housed under the actual shelves of the metal racking system.

TIME SAVING

The increased efficiency realized in the replenishment process allows the store team to replenish multiple times a week. The open four sided configuration allows easy access to products for all team members.
