DRAWER STORAGE CART

DK-ROLLCO12 BACS4 DK-ROLLCO12 BACS10

DK-ROLLCO12

The DK-RollCo12 is a vertical trolley with twelve uprights. Due to its multiple configurations, it is the ideal retailer's trolley for restocking and moving unit products intended for the replenishment of the shelves.

With its four premium swivel wheels and high-density polyethylene base, the DK-RollCo12 is robust and versatile, with a loading capacity of over 450 kilos.

Dimensions: 812 x 585 x 1855mm
(L x W x H): 32 x 23 x 73 in.
Loading capacity: 1000 lbs (450kg)

In order to adapt to the different needs of customers, the DK-RollCo12 has a multitude of configurations, such as six polyethylene drawers, or four drawers and four white bins each with row dividers, or 10 bins and one drawer. All these configurations boost product visibility in your back room and is the ultimate solution for restocking your products.

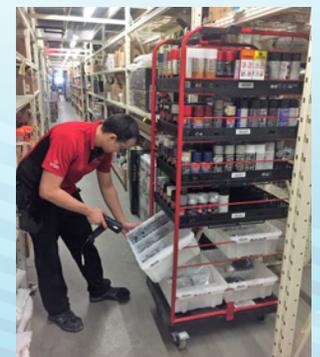

In the convenience-store field, with a bin configuration it is easy to see the products available when filling the shelves, as well as to have a continuously updated inventory.

Used in hardware store, this vertical trolley is used to transport single products, in this case paint cans. Easy to operate from the warehouse to point-of-purchase displays, it saves a lot of time.

Thanks to its drawers and row dividers, the DK-RollCo12 is designed to easily move products of all kinds that are often in different sizes and quantities.

Makes it easy to find the products you are looking for in the warehouse and to know the inventory.

SHELF STORAGE CART

DK-OPTI BULK23

A very robust and adaptable design, the DK-Opti Bulk23 is a bulk products mobile solution. Equipped with top-quality swivel wheels, it can move up to 500 kg of product in full cases, boxes or bags from the distribution center to the point of sale. Version with one, two or more shelves.

Dimensions: 815 x 585 x 1905mm (L x W x H): 32 x 23 x 75 in.
Loading capacity: 1000 lbs (450kg)

DK-OPTI BULK28

As a Shelf Storage Cart, the DK-Opti Bulk28 is designed for online ordering, shelf filing, restocking and goods returns.

Dimensions: 815 x 710 x 1905mm (L x W x H): 32 x 28 x 75 in.
Loading capacity: Tested and rated for 1,100 lb. stationary; 650 lb. in motion.

Three-shelf version used in the transport and merchandising of food containers.

Version, a shelf used in a pet food store.

Two-shelf version used in a hardware store to move products of different sizes and to fill the store shelves on a daily basis.

Thanks for its large capacity, it allows to stock many bags in a pet shop.

BEVERAGE MOBILE SOLUTION

DK-BEVERAGE4

With its four drawers, dividers and stoppers, this trolley is designed as a mobile replenishment solution for different size bottles of beverage used in retail stores.

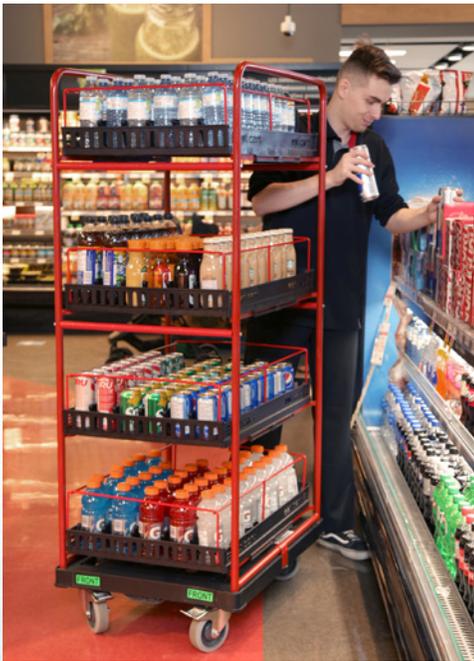

Dimensions: 812 x 585 x 1650mm
(L x W x H): 32 x 23 x 65 in.

DK-BEVERAGE12

As a mobile replenishment solution for beverage, the configuration of the DK-Beverage12 is in height, where it is possible to add six drawers with dividers and stoppers. What's more, its 1,000-lb. capacity results in optimum efficiency.

Dimensions: 812 x 585 x 1855mm
(L x W x H): 32 x 23 x 73 in.

The side walls prevent the bottles from tipping sideways, forwards or backwards.

DK-TABLET

The plastic stopper prevents products from falling off when the row is not full.

An extra shelf helps manage the inventory while using a scanner.

Each tablet has several dividers that facilitate the transport of single served of different sizes.

MOBILE REPLENISHMENT SOLUTION - RETAIL CARTS

▼ DK-OPTICART ▼

Used as a replenishment system for unit products, the DK-Opticart comes with 5 drawers, row dividers, stoppers, and four swivel wheels. Due to its polyethylene construction, it is light and quiet.

Dimensions: 812 x 585 x 1555mm (L x W x H): 32 x 23 x 61 in.
Load capacity: 1,000 lbs (450 kg)

▼ DK-OPTICART FB ▼

The DK-Opticart FB is built with 10 white bins for moving small items, such as nail polish, blades and razors, chewing gum, chocolate, soft bars, or any other small item.

Dimensions: 812 x 585 x 1555mm (L x W x H): 32 x 23 x 61 in.

An extra shelf is easily installed on the DK-Opticart, providing a compartment for work accessories or scanner.

The white bin, which can be used on a conveyor because it has a non-slip bottom, comes with two dividers.

APPLICATIONS

In **pharmacies**, the DK-Opticart is used to transport the overflow from the warehouse to the various sales sections. Whether it is shampoos, as in this case, a huge amount of time is saved in terms of travel and inventory.

In a **natural food store**, here in a Rachele-Béry, the DK-Opticart ensures the easy move of single products, which saves a lot of time.

In pharmacies, the DK-Opticart will replace the fixed shelf for unit products.

All products in the Rachele-Béry warehouse are placed on fixed shelving in rows and in units. A lot of time must be spent handling and transporting these products.

IN THE DISTRIBUTION CENTER AREA, THE TWO DIFFERENT TYPES OF LOGISTIC STOCK TRUCKS ARE DESIGNED TO NEST TOGETHER IN ORDER TO SAVE ON SPACE AND FREIGHT.

DK-ROLLCO CARGO

This extremely strong, large, sturdy and durable 3-sided logistics trolley features folding sides for nesting trolleys together. This nesting function saves warehouse space.

Dimensions: 840 x 720 x 1735mm (L x W x H); 33 x 28 x 68 in.
Weight: 19,4 kg
Wheels: 5 X 2 in. (127 X 50mm)
Loading capacity: 400 lbs (182kg)

DK-ROLLCO TYPE Z

Two-sided logistics trolley that has no back and can transport unusual objects. Trolley with a raised base to allow nesting with others and minimize truck space.

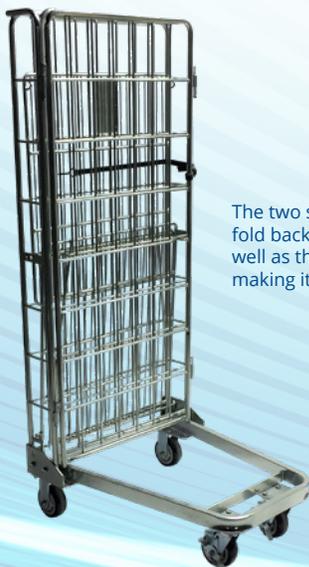

Dimensions: 870 x 760 x 1835mm (L x W x H); 34 x 30 x 72 in.
Weight: 19,4 kg
Wheels: 5 X 2 in. (127 X 50mm)
Loading capacity: 400 lbs (182kg)

The carts nest into one another to facilitate the return to the distribution centre, saving space in the warehouse and at the retail location.

Its Z-shaped metal base allows several trolleys to be nested and facilitates the return of the stock truck to the warehouse.

The two sides of the trolley fold back on themselves as well as the base and shelf, making it very compact.

The polyethylene base and metal shelf can be raised on the sides.

CUSTOM MADE PRODUCTS MANUFACTURING

DK-PILLCART RX

In the field of pharmacy, this trolley is designed for the transport and storage of display cards. It has four drawers and eight card holders.

PICK & PACK CART

DK-ETAL2T BACS

This trolley makes it easier to handle items from a plastic bin. With its highly ergonomic corner bracket on the top shelf, emptying the contents of the bin and placing them on the shelf becomes an easy task.

Dimensions: 1070 x 535 x 965mm
(L x W x H); 42 ½ x 21 x 38 in.
Loading capacity: 600 lbs (250kg)

In order to efficiently pick multiple orders and ensure all items are in perfect condition when they are delivered or collected, the DK-ECOM has three levels and holds 8 removable bins (15 ¾ x 23 ½ x 12 ¾ in.).
Dimensions: 1730 x 660 x 1370mm
(L x W x H); 68 x 26 x 54 in.

DK-OPTI PEGBOARD

The pegboard version of our DK-Opticart is used to hold "peg-able" items such as office products, snacks, gift-cards and cosmetic goods.

Dimensions: 812 x 585 x 1555mm
(L x W x H); 32 x 23 x 61 in.

CUSTOM MADE

▼ DK-AUTO CONDO ▼

Used in apartments and condos, for the transportation of food bags, plants, small furniture or any type of boxes.

Dimensions: 832 x 560 x 977mm
(L x W x H): 32 ¾ x 22 x 38 ½ in.
Wheels: 2 x 5 in. (127mm) / 2 x 10 in. (254mm)

▼ DK-CARTON ▼

Designed for cardboard recycling, this trolley has a large capacity, which reduces travel time to the compactor.

Dimensions: 915 x 610 x 1600mm
(L x W x H): 36 x 24 x 63 in.

▼ DK-UTRUK and DK-UTRUK2T ▼

Equipped with six wheels, this trolley is ideal for heavy goods or overstock in the retail industry or distribution center. One model with 2 shelves.

Dimensions: 1232 x 491 x 1321mm
(L x W x H): 48 ½ x 19 ½ x 52 in.
Wheels: 4 x 4 in. (102mm) / 2 x 6 in. (152mm)

SECURITY CART

▼ DK-BULK CAGE ▼

With its closed sides, locking door, three shelves, the DK-Bulk Cage is the solution for the safe management of your surplus bulk product inventory.

Dimensions: 865 x 685 x 1905mm
(L x W x H): 34 x 27 x 75 in.

▼ DK-CAGE28 ▼

The DK-Cage28 was developed to safely ship and store valuable items and high-theft products.

Dimensions: 812 x 725 x 1905mm
(L x W x H): 32 x 28 x 75 in.
